Comments:

- Comments: Becoming more comfort as time goes on. I'm anxious to do my personal prep and to learn the material. Content is awesome & has huge potential. Yes with the support of a co facilitator or outline of last session. I am comfortable after sitting through the two lessons. I think just by diving in myself made my comfort level well increase

### Additional comments:

*Thank you for doing this! I feel more comfortable with moving forward.*

*Thank you so much for the opportunity to learn about this program! I'm definitely interested in being a part!*

*Would be more comfortable with adults first to ease back into training . I'm a little old to be influencial with younger population*

*Thanks!*

*I cant wait to get this started in the work adjustment lab @ LHS*
