Please explain:

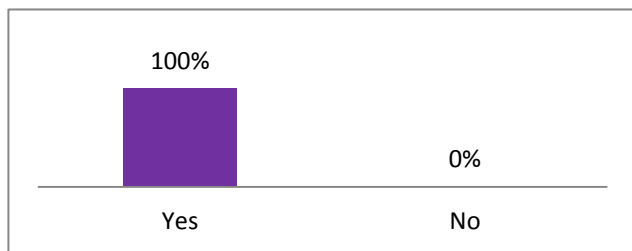

Sophie has changed over the year. She has grown up through out the year and takes opinions of others serious.

brags about getting caught smoking in boys bathroom on more than one occasion.

Brooklyn is a positive influence in school and in sports. She is a hard worker who is determined to do her best at all times. She is conscious of the way that she is perceived, and uses that to reflect a positive attitude. Other students look up to her as a role model to follow, especially younger students.

Please explain:

Sophie did not like ALA because it challenged her but she made it though the year.

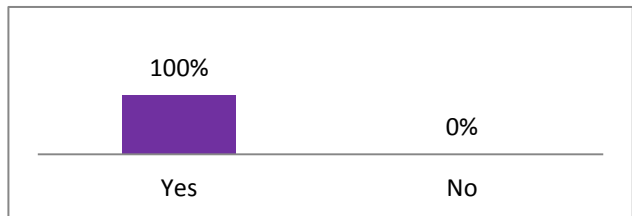

In some ways but, Josh needs more of it.

Anthony is starting to turn into nice young man who shows respect toward adults. He shows manners that he never expressed in the past. When he makes a mistake he will say I am sorry.

Brooklyn has really taken a step forward this year in her leadership, both in school and in sports. I didn't have Brooklyn as a student this year, but we spoke frequently. In spending time with her, it is evident that she is thinking more about the decisions she makes, the person that she wants to be, and the people that she spends her time with.

Do you think ALA is helping change the culture of the school?

Please explain:

Yes in many ways.

I think that ALA is making a positive impact on the students who are taking it. I'm not sure if it is necessarily changing the culture of the school. I believe that a continued positive presence in the school can have the ability to affect the climate and culture of the school.
