**Please explain:**

*it has become a more welcoming and enjoyable place to learn.*

*I believe it is making it more inclusive, more tolerant, and more welcoming to all students.*

*absolutely, The kids are more accepting of others, and there is a slow groundswell of compassion. It is hard to quantify, but visible in the faces and the feeling in the halls. I watch their faces and body language as a way to anticipate behavior problems before they happen, and there are more smiles between friends.*

*As I have stated in the other surveys, it has made a positive change in our school culture.*

*many of our students don't know exactly what ALA is, so this helps give the students involved an opportunity to share with them about what they are doing, and it is making friendships, and a profound difference in our building.*
