Love the summer camp and staff. would like to see it run a full week or 4 days a week

Other than camp I am unaware of other services, it would be nice to have services, groups, activities for this population

My needs are addressed promptly.

I rarely contact them for anything

The funding provided by the Family Selected Supports (FSS) Program helps meet my child's/family needs.

We need ABA therapist and respite, of there were some in the area I would use the for that. However it does help purchase therapy/support item that are needed

??

It is very helpful

I understand what services are available for my child through the PCBDD.

I don't know them all but I feel that is my own fault not PCBDD

I am not really aware of the services available other than FSS funds

What are your expectations from the PCBDD's Children's Program?

To aid in the support/education of those with disabilities in the county. funding or resources

To be there and help with services when needed

I'm not sure

To help with any needs my child may be physically or financially burdened from

Assistance when needed

Just sometimes someone to talk to

To continue to help families that need help

I feel like I cannot ask for anything because there is no funding or not enough funding and there are too many people with a lot less than me.

Program's and activities for my child to obtain/maintain friendships and a sense of belonging and respite for us.

To actually have programs available and then to be made aware of said services

Please provide at least one suggestion/resource what will help your child/family.

Full week of summer camp and after school care.

I am trying to find the right learning place for my little boy. I'm not sure how to continue looking.

We love our yearly zoo pass. Learning experience, outdoors, exercise, etc.

I have a hard time finding the right phone number to call.

gas

Provide transportation when needed

We are doing fine. School is helping him a lot.

More programs through out the year

We have spent almost 1200 per month in speech therapy because of insurance issues, it would be nice to have a ST employed by the county that we could use for a very discounted rate, or even

free. The one provided at school is ok, as long as school is in session, its not summer break, etc. Plus those interactions are very limited usually 90 min/month based on the IEP. I know that Mt Al's employs

Additional comments:

Sometimes I just feel lost and incapable of doing all I need to do for him. ☐

I think it helps him on confidence in himself. I like that. Thank you for the camp program,

I think there should be more opportunities for children w/disabilities to participate in events, such as sensory Santa, and Easter egg hunt, etc. I have tried to take out kiddo to the regular egg hunt only to have her literally run over by "{typical}" kids.
