WHY IS ALA EFFECTIVE?

ALA systems address leadership and personal growth skills that last a lifetime.

Through this programming, a leadership seed is planted to promote the integration of ALL people of different backgrounds, including those with developmental disabilities, into their community. ALA systems are designed to encourage ongoing self-improvement and support the PCBDD philosophy of R.A.I.L.S (Responsibility, Accountability, Independence, Leadership and Self-Sufficiency).

These principles are integrated into each session to help participants add value to themselves, which will strengthen the local schools, workforce, and community.
